Please use the enclosed aldohol pad to clean the area where the ProClip is to be installed.

1. Press the thin end of the enclosed gap opener into the gap between the air vent panel frame and the panel frame surrounding the stereo, to widen the gap. Use the enclosed alcohol pad to clean the area where the ProClip is to be installed. Peel off the cover of adhesive tape on the ProClip. Hold the ProClip in an almost horizontal position and press the curved edge on the lower part into the gap next to the gap opener.

2. Flip the ProClip upward and at the same time press forward on the lower part of the ProClip so the curved lower edge goes all the way into the gap, and hooks behind the stereo panel frame. Pull out the gap opener.

3. Place your thumbs towards the upper part of the ProClip and press firmly forward so the angled edge hooks around the air vent panel frame edge.

4. The ProClip is in place.
